

Dr. Bill Robbins
A 50 Year Retrospective – My Failures and Lessons Learned

It has been said that “success is a poor teacher”. In this presentation I will show failures of my cases and lessons that I have learned in the past 50 years.

Synopsis:

1. Implants in the anterior maxilla
2. Treatment options for the worn lower incisors
3. Restoring subgingival margins in posterior teeth
4. Treating the Difficult patient
5. The power of DSD

Learning Objectives:

The attendee will:

1. See many clinical and behavioral failures that the speaker has experienced during his 50 years of clinical practice.
2. Learn the lessons that the speaker has learned in dealing with these failures.
